

## Eco cleanpeer Harima has been in full-scale operation!

Since February 2022, burnable, non-burnable and oversized garbage in Kakogawa City have been processed at the Eco cleanpeer Harima (address: 6-1-1 Umei, Takasago City) operated by two cities and two towns (Kakogawa City, Takasago City, Inami-cho and Harima-cho). If you carry in your garbage by yourself, please bring it to the Eco cleanpeer Harima.

(Pruned branches)  
Recycle Center Tel 079-428-2391  
Opening hours 8:15–15:30 Mon.–Sat. (incl. public holidays)

## How to Put Out Garbage

Please also see the back of this page.

### Burnable garbage (Please put out in a designated garbage bag.)

Please use Kakogawa City's designated garbage bags.

**Please note that burnable garbage in bags other than designated garbage bags cannot be collected.**

Designated garbage bags can be purchased at supermarkets, hardware stores, drugstores, convenience stores, etc.

(Some stores may not have all the types of bags.)

☆ Put garbage in 45, 30 or 15-liter designated garbage bag to put out at the collection point.

Point 1  
◎ Drain food waste thoroughly.

Point 2  
◎ Squeeze the air out of the garbage bag as much as possible.

Point 3  
◎ Cooking oil should be solidified by coagulant or soaked in a cloth, etc., and put out little by little.

### Non-burnable garbage (Please do not put out in a garbage bag.)

Point 1  
◎ Take out of the garbage bag and put in a basket directly. There is no designated color for the baskets.

Point 2  
◎ Light bulbs, flat glass, knives, etc. should be wrapped by newspaper, etc. and written “キケン” (dangerous).

Point 3  
◎ To dispose of small home appliances, please use a collection box (the slot size of 15cm x 40cm) located at the City Hall, Environment Beautification Center, Civic Centers, public halls and Human Rights Culture Center.

**Please put out spray cans and gas cartridges at the collection point on the can collection day.**

● Plastics are burnable garbage, so they cannot be collected as non-burnable garbage.
